CITY WIDE STAFFING DATA AND CHARTS

The City of Orlando mission is to “Enhance the quality of life in the City by delivering public services in a knowledgeable, responsive and financially responsible manner.” Part of fulfilling the City’s mission are various budgetary, operational, and programmatic enhancements dedicated to benefitting residents. A key component of this is modifying City personnel levels because of the burgeoning needs of the diverse and flourishing populace who call the *City Beautiful* home.

Many governmental entities only adjust staff before the start of a new fiscal year. The City of Orlando is unique as we proactively change personnel before **and** during the fiscal year in response to changing priorities. Whether it is to add more Fire and Police personnel to increase public safety or structural reorganizations for improved efficiency, these changes are made with residents’ needs as the driving force.

Total Police First Responders	772	771	793	795	794	806	838	863	899	920

Note: The statistical category of **First Responder** refers to employees designated or those specifically trained to respond to an emergency and/or those responsible for going immediately to the scene of an accident or emergency to provide assistance. Sworn Police and Fire personnel, Civilian Transport employees, and Community Service Officers (CSO) are in this category.

Employees per 1,000 Residents: This chart tracks a key statistical indicator for measuring efficiency and effectiveness in government. The data presented measures the number of all City employees per 1,000 residents. Naturally as the population grows, so does the need for increased staff to provide necessary public services. Part of the City’s responsibility is to have sufficient staff, but not superfluous staff. As the chart demonstrates, even with an ever growing population, the City continues to provide first class services, while remaining financially responsible and operationally productive.
