Dear Mayor Dyer and city officials,

The shootings at the Orlando nightclub is a cowardly horrific act attacking the LGBT community.

I have the highest confidence that elected officials and law enforcement will continue to investigate all aspects.

Texas Police Officer Killed in Head-On Crash

PEARLAND, Texas -- A Pearland Police officer en route to a non-emergency call died early Sunday in a head-on collision.

The accident happened around 3:15 a.m. at Broadway and Liberty in Pearland. The officer was said to be driving at a normal speed without lights or sirens when a woman driving a gray Chrysler SRT slammed head-on into the patrol car.

A person driving by the wreck found the officer pinned unconscious in his car and called 911.

Subject: Social Media / Crisis Communications - Pulse Shooting

Your first round of communication (event hours 0 through 6) on social media was excellent.

It has dropped since then...

- Rumors, speculation and mis-information are growing in the online community: you need to increase active monitoring and begin to respond to questions and information that is not accurate
- Voice: you are becoming less relevant in the conversation and media is becoming more relevant. You need to increase your voice using the hashtags and let them follow your lead. #pulsenightclub #pulseshooting are the two most active.
- Blood donations are required...let the community know where to go.
- Your online activity should be increasing now, not decreasing. More people are awake, more people will have questions. If you aren't providing the information, then who is?
- Share the content of your partners again: Hospitals, support, community orgs. Include their twitter IDs, phone numbers.

Being a retired Royal Canadian Mounted Police SWAT officer I would just like to send along my congratulations to your SWAT team members, they are all heroes. Your members are all clear examples of all that is good in your city, they are there to defend the citizens of Orland when others flee.

Can I make a little side note, the Police Department does not have any place on it to add a positive comment and that should be fixed, the officers need to hear the positive as well as the negative comments about their interaction with the public.

Good morning,

At 8 pm tonight there will be a candlelight vigil for the victims of the Pulse Nightclub shooting. This is not a park event, no space has been rented. OPD is aware of it.

Over 100 people are expected, they'll be meeting in the Amphitheater area and walking around the park. The organizer is Daniel Pearce, his phone # is [\(321\) 945-0592](tel:3219450592). Daniel will be setting up a Facebook/Twitter invitation and will share it with me so we can monitor the expected activities.

John -

You're too busy to read this now but job well done by your teams. Your PIO / social media crew is already getting accolades for how they managed the crisis online. People still talk about how well Boston PD handled social media post-marathon bombing. It's not selfish to let them take their 15 mins when it quiets down.

Same goes for your tactical teams. Hoping for a quick recovery for the injured officer. Support any kudos they get along the way and let them relay their experience. If you don't, the next department will.

Likewise and most important: you. You had a one in a million weekend for a police chief. Books have been written and keynote speeches have been crafted around less. Busy as you are, take the time to document every little thing. You may not be that kind of guy, but someone will deserve to hear how professionally these incidents were handled or what could be learned from them someday.

Cheers,
Paul

Hi Chief Campanello and Chief Mina,

Chief Campanello, I am honored to introduce you to Chief Mina, the Chief of Police for the City of Orlando. I met Chief Mina today at the Heroin Task Force Meeting of which he is a part of. I shared with the group the amazing work you are doing in MA and how your efforts are spreading across the U.S.

I forwarded Chief Mina the release that went out when we became a part of your initiative so that he would have additional information about your program. I hope that you two can connect and that Orlando could explore the possibility of doing something similar here as well.

As always, please don't hesitate to call me directly if you have any questions:)

Thanks for all you do ~

Dear Chief,

How in the hell could officers stand around for 3 hours during a shooting and not enter the building to stop one man, Your officers are cowards. You have the blood of the victims on your hands. I am livid that the protectors are such pussies.

You should have entered and stopped the shooter. What kind of police officers do you have? Why didn't you have a plan to stop active shooter? You should resign in humiliation. No way one man should be able to kill 50 people if police are on scene. What about the officer that engaged the suspect? Did he just fire a few rounds and run? This is totally unbelievable.

Again you department is responsible for these death. Your inaction, your incompetence, your fear have caused this tragedy.

Totally outraged,

Good morning,

At 8 pm tonight there will be a candlelight vigil for the victims of the Pulse Nightclub shooting. This is not a park event, no space has been rented. OPD is aware of it.

Over 100 people are expected, they'll be meeting in the Amphitheater area and walking around the park. The organizer is Daniel Pearce, his phone # is [\(321\) 945-0592](tel:3219450592). Daniel will be setting up a Facebook/Twitter invitation and will share it with me so we can monitor the expected activities.

Subject: My deepest sympathies and a suggestion for helping prevent future attacks
Attachments: Predictive Analytics for a Mass Shooter Warning System.pdf

Dear Mayor Dyer:

First, my thoughts and prayers go out to the victims of the Pulse nightclub shooting and their families, and to you and your constituents. These types of events not only affect the victims and their immediate families, but society at large: they remind us of our vulnerability and the senselessness of mass violence.

Me and two other researchers have developed a predictive analytics strategy that we think could substantially assist law enforcement in getting early warning for a potential mass shooting. This strategy proposes tracking ammunition purchases in a secure, centralized database. The purchases are anonymized to protect identity, but with the ability to get a purchasers' ID after due process.

The ammunition purchase database will allow law enforcement to leverage powerful big data technology and predictive analytics to identify unusual ammunition purchase patterns that are indicative of an impending mass shooting. In addition, the system can learn over time by training it with actual shooting events and the ammunition purchase behavior that preceded it.

I have attached a more detailed description if you would like to know more. Of course, I and my fellow researchers are available to you as well, should you wish to discuss further.

With Deepest Sympathy,
Michael Beyer, PE, CAP

Director Fang:

At this time we are working with the FBI, Florida Department of Law Enforcement and the Orlando Police Department to identify the victims in today's mass shooting incident.

It will likely be hours before the identities are known. So we are unable to provide information on whether Chinese citizens were involved. We are asking possible families of victims to contact (407) 246-4357 for more information.

Sincerely,

STATEMENT BY SECRETARY JOHNSON ON THE ORLANDO, FLORIDA ATTACK

As the President just stated, the deadly shooting in the early morning hours in Orlando is the worst in U.S. history. As the President also stated, it was an act of terror and an act of hate. Our thoughts and prayers are with the victims and their families. The leadership of the Department of Homeland Security and our components are dedicated to investigating this tragedy, along with the FBI and our state and local partners, and supporting the Orlando community in the tragedy's aftermath. In light of today's tragedy, this morning I canceled my planned official travel to Beijing to resume our ministerial-level discussions there.

Subject: URGENT: Orlando mass-shooting. We can help.
Importance: High

Dear Mayor Dyer:

The National Center for Victims of Crime stand ready to assist your community in the aftermath of this horrific event. As we did following the 2014 shooting at Fort Hood and the 2015 shooting in Chattanooga, TN, we are offering to open the National Compassion Fund for the benefit of the victims of this atrocity. The National Compassion Fund can:

- accept contributions from the general public and distribute 100% of those donations to the victims;
- work with law enforcement, victim services and the FBI to coordinate services, get information to victims, and validate applications for benefits;
- Help coordinate a local steering committee of your appointment that raise funds for the benefit of the victims and guide the crafting of a distribution plan.

Why you should designate the National Compassion Fund as the official relief effort?

- We can ensure that the community response is victim-centered and trauma-informed.
- We have the experience to help you through this crisis without you having to re-invent the process.
- Relief efforts are often rife with fraud, as con-artists set up "go fund me" sites soliciting funds for victims, but just pocket the money. As a respected 501(c)(3), donors can be confident that their contribution will be tax-deductible and make a difference.
- We can offer you a trusted, transparent process that will make Orlando proud.

What do you have to do to get us to help?

1. Designate the National Compassion Fund as the official relief effort.
2. Appoint a steering committee of local civic leaders representing the full=spectrum and diversity of your city.
3. Orlando will eventually receive a grant from the U.S. Department of Justice, Office for Victims of Crime to reimburse Orlando for its expenses in responding to this terrorist attack. We only ask that our expenses in providing the services be included in that grant request.

Our experience tell us that if this effort is to be successful, it must be launched within the first 24 hours. I can be in Orlando in the morning. I am available by cell phone today at 703-371-6787 if you would like to have your Chief of Staff contact me.

For more information on the National Center and the National Compassion Fund, please visit our web sites:

Mr. Barnett,

Thank you for your concern, However, I am not sure as to where you received your information. Here are some facts concerning this incident: there was an officer working extra duty (in uniform) outside of the nightclub and he make contact with the suspect. There were multiple officers that responded and they started taking victims to the hospital for treatment. Officers used extreme safety measures to make contact with the suspect and he later engaged into a gun fight with our SWAT team.

I am very proud of the response by the members of the Orlando Police Department that responded. We are working with multiple agencies and resources to bring closure to this incident.

You should have entered and stopped the shooter. What kind of police officers do you have? Why didn't you have a plan to stop active shooter? You should resign in humiliation. No way one man should be able to kill 50 people if police are on scene. What about the officer that engaged the suspect? Did he just fire a few rounds and run? This is totally unbelievable.

Again you department is responsible for these death. Your inaction, your incompetence, your fear have caused this tragedy.

Dear Mayor Dyer

My name is Carl Cagliarini. I work with a team of Scientists and Engineers who are working out of Manchester UK and Salem NH. We work closely with the UK Government and US Government creating counter terror solutions. A great deal of UK and US tax dollars have been spent on the development of a piece of technology that should be looked at by those with responsibility for Safety of the Public.

After waking to the news of the attack in Orlando this morning, it reminded me of the fact that Governor Scott and the Security people at Disney, have not responded to a communication of mine regarding the lack of security at Orlando theme parks, which I bring my children to every year from the UK at great expense. The lack of security at these parks is a clear open goal for ISIS or any person who wishes to cause chaos. I work with agencies where such attacks happen daily.

Please take a look at this. This was recorded for people in the US State department last year. We also did live demonstrations on CNN in Istanbul two weeks ago to show how we can search a suspect concealing a suicide vest beneath clothing. Also heavy weaponry concealed beneath clothing. Without invasion of privacy.

<https://www.youtube.com/watch?v=MtfmRVaux2k>

Please Google Carl Cagliarini or look on Linked In for Carl Cagliarini to check the validity of who I am and what I do and who I am working with. Alternatively Please call Mr. Douglas A Smith who served as Assistant Secretary for the Private Sector of US Department of Homeland Security who will also give insight into my validity. He can be reached on 202 550 6585.

I can be reached in the UK on +447753691642
Official email carl@rpssys.com

Many Thanks for reading this. I hope it is of interest. It is understood that such technology alone will not always stop such events. That said identifying a person packing a suicide bomb or a couple of semi auto assault rifles beneath clothing even before the get close to an entrance, is something that gives law enforcement an informed chance to take action or start protocol.

I have also just sent a reminder email to the office of Rick Scott.

Carl Cagliarini

My name is Carl Cagliarini. I work with a team of Scientists and Engineers who are working out of Manchester UK and Salem NH. We work closely with the UK Government and US Government creating counter terror solutions. A great deal of UK and US tax dollars have been spent on the development of a piece of technology that should be looked at by those with responsibility for Safety of the Public.

After waking to the news of the attack in Orlando this morning, it reminded me of the fact that Governor Scott and the Security people at Disney, have not responded to a communication of mine regarding the lack of security at Orlando theme parks, which I bring my children to every year from the UK at great expense. The lack of security at these parks is a clear open goal for ISIS or any person who wishes to cause chaos. I work with agencies where such attacks happen daily.

Please take a look at this. This was recorded for people in the US State department last year. We also did live demonstrations on CNN in Istanbul two weeks ago to show how we can search a suspect concealing a suicide vest beneath clothing. Also heavy weaponry concealed beneath clothing. Without invasion of privacy.

Many Thanks for reading this. I hope it is of interest. It is understood that such technology alone will not always stop such events. That said identifying a person packing a suicide bomb or a couple of semi auto assault rifles beneath clothing even before the get close to an entrance, is something that gives law enforcement an informed chance to take action or start protocol.

I have also just sent a reminder email to the office of Rick Scott.

Hi,

I am a producer for BBC World News and I would like to firstly express my deepest sadness and condolences for such tragic events in your part of the world overnight.

I was wondering if the Mayor, or if anyone from the City of Orlando Council, or public safety department is available to do a Skype interview on our programme this evening any time between 0100- 0700 British time, which would be between 2000- 0200 Florida time. It will be with our America Correspondent Katty Kay and will have world-wide coverage. It shouldn't take more than a few minutes.

Please let me know if this could work, and I will be in touch to organise further details.

John:

This is Greg Mullen from Charleston, SC. I want you to know that our entire department is praying for you, your officers, and your community. We understand from our own mass murder that happened last year in a local church the impact an event like this has on all responders and the whole community; the magnitude of this incident makes it unimaginable.

If there is anything that I can do for you personally, please do not hesitate to reach out to me ([843-834-2696](tel:843-834-2696)). My department is also prepared to do whatever we can to help you now or in the weeks to come.

Again, we are here to assist you in any way. We also pray for strength and wisdom for you and your officers, as you lead your community through this very difficult time.

Can I make a little side note, the Police Department does not have any place on it to add a positive comment and that should be fixed, the officers need to hear the positive as well as the negative comments about their interaction with the public.

Sheriff Demings and Chief Mina,

As partners with you in the Central Florida community, we would like to offer our assistance in any way possible. Please include our organization, the Central Florida Freethought Community, alongside others as you are able, and connect us with the appropriate persons or offices so we may be an additional resource.

As a clergy member, please include me among other faith leaders when the community comes together in the coming days to grieve, to pray, and to recover emotionally from this unthinkable tragedy. Those of us without religion also wish to offer our own words of solace and to be part of the process of healing and recovery.

I hope to hear from you or your staff soon regarding how we can assist.

Regards,

David Williamson

john.mina Action Required	Office 365	mullen Recipient
--------------------------------------------	-------------------	----------------------------

Unknown To address

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype

the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 550 5.1.1 in Office 365](#).

Hi,

I am a producer for BBC World News and I would like to firstly express my deepest sadness and condolences for such tragic events in your part of the world overnight.

I was wondering if the Mayor, or if anyone from the City of Orlando Council, or public safety department is available to do a Skype interview on our programme this evening any time between 0100- 0700 British time, which would be between 2000- 0200 Florida time. It will be with our America Correspondent Katty Kay and will have world-wide coverage. It shouldn't take more than a few minutes.

Please let me know if this could work, and I will be in touch to organise further details.

Warm Regards

Mr. Silver,

Thank you for reaching out to us with your concerns. This incident did not just affect individuals within our community but it has affected individuals nationally. I would like to give you some facts in this tragic incident. There was an Orlando Police Officer working extra duty who was wearing a uniform. This officer actually engaged the suspect as he was attempting to enter the club. We are very proud of that officers and all of the other officers response considering what was taking place. Our officers were not hiding at all. Instead, they were trying to get victims to safety in order to be treated. During this incident one of our officers was also shot by this suspect.

Our mission is to protect the citizens that live/work in the community in which we serve.

EVERYTOWN, FLORIDA MOMS STATEMENTS ON ORLANDO NIGHTCLUB SHOOTING

Shooting is at Least 9th Mass Killing in 2016 – and at Least the 150th Since 2009; Everytown Research (And Visuals) on [Gun Violence by the Numbers Available Here](#)

NEW YORK – Everytown for Gun Safety and Moms Demand Action for Gun Sense in America, a part of Everytown, released the following

statements today after news reports that 20 people were killed and many more injured after a shooting at a gay nightclub in Orlando. This is the 9th mass shooting in 2016 and the 150th mass shooting since 2009, when Everytown began tracking shootings in which four or more people are killed. The shooting last night in Orlando is the largest mass shooting in American history. Everytown's research and analysis of mass shootings is [available here](#).

STATEMENT FROM SHANNON WATTS, FOUNDER OF MOMS DEMAND ACTION:

“I am saddened and outraged that yet another American community is being traumatized by a mass shooting. Last night, lives were stolen and others forever altered in a place where Americans should feel safe. Yet every single day, 91 Americans are killed by gun violence, and hundreds more are injured. We will never accept these shootings as the new normal, and we must continue to demand our lawmakers act and work to keep guns out of dangerous hands. The phrase "another mass shooting" does not have to be a part of the American vocabulary.”

STATEMENT FROM ANDREA HALPERIN, VOLUNTEER LEADER WITH THE FLORIDA CHAPTER OF MOMS DEMAND ACTION:

"Once again, Americans woke up today and learned that people were senselessly killed last night, targeted in a place where we should be safe to enjoy ourselves. Last summer it was a movie theater, today it is a nightclub. Our hearts ache for the families of the 20 killed, many more injured – and the entire Orlando community. This shooting happened just a day after a Christina Grimmie, a young woman with a bright future ahead of her was killed in Orlando. This is madness and it must stop. We need more than thoughts and prayers – we urge all Americans who feel the same to join us and demand that our political leaders take action to end the bloodshed that kills so many."

Yesterday Everytown and Moms Demand Action released a statement ([available here](#)) from Lucy McBath, an outreach leader, whose son Jordan Davis was killed at a Florida gas station over a dispute about loud music.

Gun violence prevention leaders and survivors are available for

interviews today. Please contact press@everytown.org.

here you go:

On the darkest day of my 25 years at this agency, I wanted to take a moment to tell all of you how proud I am of the work you have done today.

We have trained again and again for this type of situation. It's unfortunate that we had to put those skills to use today. But because of that training and your professionalism, we saved dozens of lives this morning.

Even before the first patrol units arrived on the scene, an OPD officer working extra duty at the club engaged the gunman as he opened fire. Our First Responders faced a hail of gunfire as they rescued the hostages, and we are blessed beyond words that none of them – or any Law Enforcement personnel – were gravely injured or killed.

We've received an enormous amount of tactical Law Enforcement support from local, state and Federal agencies. The outpouring we have received from our Central Florida community and LEOS across the nation and the world, has overwhelmed me with gratitude.

I know that you have all been affected today by the tragic actions of a lone terrorist who cut short the lives of so many. Our community – and our Department - will be grieving in the days, weeks and months to come.

But on a day like today – and every day – I couldn't be more proud to be your Chief.

Please hug your families tonight. And be safe out there.

Subject: Our Community's Hearts and Prayers Are with Pulse Nightclub Shooting Victims and Their Families

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to cityoforlando.net/victims.

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

Taking victims to the hospital is not taking out the shooter. Responding officers should have entered the building instead of using "extreme safety measures"(the officers safety, not the victims). You waited 3 hours before you breached the building. I see no policemen were killed or wounded, not that I want officers hurt. Officers should run toward gun fire instead of standing around outside. That's what we did in the Marines. We kicked in doors and started kicking ass. If your proud of inaction, so be it. And the information is all over the news. Sorry for being hard on your department, but there is no reason one shooter should ever be able to kill so many. My prayers are with your city.

Thank you for your concern, However, I am not sure as to where you received your information. Here are some facts concerning this incident: there was an officer working extra duty (in uniform) outside of the nightclub and he make contact with the suspect. There were multiple officers that responded and they started taking victims to the hospital for treatment. Officers used extreme safety measures to make contact with the suspect and he later engaged into a gun fight with our SWAT team.

I am very proud of the response by the members of the Orlando Police Department that responded. We are working with multiple agencies and resources to bring closure to this incident.

You should have entered and stopped the shooter. What kind of police officers do you have? Why didn't you have a plan to stop active shooter? You should resign in humiliation. No way one man should be able to kill 50 people if police are on scene. What about the officer that engaged the suspect? Did he just fire a few rounds and run? This is totally unbelievable.

Again you department is responsible for these death. Your inaction, your incompetence, your fear have caused this tragedy.

I asked Dana to participate during the workshop by telling his story with the family he has been helping. I also asked him to bring the members of the family members if possible and he is working on that.

We also have Officer Kyle Presha who told me "I have been looking for an opportunity to use my life experiences, mainly the loss of my little brother, to help direct at-risk youth away from crime. This sounds like a program that could give me that opportunity."

If OUC would be willing to help coordinate hotel accommodations for the family members arriving at the Family Reunification Center for those who need accommodations, that would be fantastic.

If OUC would like to do this, please let me know and we can connect you with City Staff who will be staffing the Reunification Center.

Even before the first patrol units arrived on the scene, an OPD officer working extra duty at the club engaged the gunman as he opened fire. Our First Responders and SWAT Team faced a hail of gunfire as they rescued the hostages, and we are blessed beyond words that none of them were gravely injured or killed.

We've received an enormous amount of tactical Law Enforcement support from local, state and Federal agencies. The outpouring we have received from our Central Florida community and Law Enforcement across the nation and the world, has overwhelmed me with gratitude.

I know that you have all been affected today by the tragic actions of a lone terrorist who cut short the lives of so many. Our community, our City, and our Department will be grieving in the days, weeks and months to come.

But on a day like today – and every day – I couldn't be more proud to be your Chief.

Please hug your families tonight. And be safe out there.

Chief Mina,
My wife and I posted this on our facebook page on thought we would share it with your department also.

As we try to deal with the tragic event that has happened in Orlando and pray for the victims, their families and friends, Please let us not forget the Law Enforcement Officers who had to deal with this. Once again they put their lives on the line to protect those they did not know. As they risked their lives and entered the unknowing until the threat was over, they then continued to help those in need.

Our thoughts and prayers must be with the men and women of the Orlando area Law Enforcement also. This will have a lasting affect on them also.

May God Bless them all.

The Orlando Police Department family and our community have experienced an extremely tragic event involving a terrorist attack at Club Pulse. Out of concern for the well being of our members, Chief Mina has directed the Critical Incident Stress Management Team (CISM) to schedule a debriefing on **Tuesday, June 14th at 1600 hours** at the Andes Training Facility. This debriefing is **MANDATORY** for all personnel involved in or affected by the incident. Members in attendance will not be required to speak unless they wish to.

A CISM debriefing will give members the opportunity to talk about their experience and how it has affected them. Members will also be given information about resources to help them cope with this tragedy. A CISM debriefing is not a critique or debriefing of the incident itself; it is reserved for discussions on how this incident has affected our member's emotionally. CISM team members and OPD chaplains will be on scene to guide the discussions.

In addition, the OPD chaplains will be announcing office hours in the near future for members to stop by and visit with a chaplain to gain spiritual guidance through the coming days and beyond. The Orlando Police Department is committed to the support of those who put themselves in harms way both physically and emotionally serving our community.

Mr. Silver,

Thank you for reaching out to us with your concerns. This incident did not just affect individuals within our community but it has affected individuals nationally. I would like to give you some facts in this tragic incident. There was an Orlando Police Officer working extra duty who was wearing a uniform. This officer actually engaged the suspect as he was attempting to enter the club. We are very proud of that officers and all of the other officers response considering what was taking place. Our officers were not hiding at all. Instead, they were trying to get victims to safety in order to be treated. During this incident one of our officers was also shot by this suspect.

Our mission is to protect the citizens that live/work in the community in which we serve.

Hi Wanda,

We just finished our show meeting for tomorrow and wanted to let you know we would very much be interested in having Chief Mina join us at the top of our show at 6:00am tomorrow, June 13. Our anchors Chris Cuomo and Alisyn Camerota will be broadcasting live from a location in Orlando. I know that we discussed having Chief Mina on for tomorrow already, but the recent events may have changed his schedule. Still hoping the Mayor will be able to join us on set at 6:00am tomorrow. Please let me know at your earliest convenience and I can send you the location address.

U.S. Department of Veterans Affairs

Washington, DC 20420

RE: In light of the Massacre at the Downtown Orlando Pulse Nightclub, Requesting Extraordinary Security Measures for Both Orlando VA Medical Facilities.

Dear Secretary McDonald:

As you are aware, the massacre at an Orlando Pulse Nightclub early Sunday morning has been described as a "domestic terror incident" with at least 50 dead and 53 injured, officials said, making it the worst mass shooting in U.S. history and the deadliest terror attack on U.S. soil since the events of Sept. 11, 2001.

The deceased trained gunman has been identified by officials as 29-year-old Omar Mateen of St. Lucie County, Florida, an American-born citizen with Afghani parents.

President Obama today described as "an act of terror" the mass shooting in Orlando overnight, which left at least 50 people dead.

"We stand with the people of Orlando who have endured a terrible attack on their city," Obama said at the White House. "This could have been any one of our cities."

The White House said that the president was briefed early Sunday by his Homeland Security and counter-terrorism adviser Lisa Monaco on the attack, and asked for regular updates as the FBI works with the Orlando police.

Obama noted the shooting at the Pulse Nightclub is the worst ever mass shooting on American soil, Sandy Hook previously held the highest death toll of any domestic shooting during his presidency.

With that said, as a community activist and disabled American Veteran, I have been very active in the community especially addressing violent crimes. I am current working on a letter to you concerning implementing safety measures at both Orlando VA Medical Facilities, in Lake Baldwin and Lake Nona.

Mr. McDonald, in light of this massacre and the senseless crime that has already taken place here in Orlando, I am urging you to take extraordinary measures in making sure that Orlando VA Medical Facilities are safe.

There are just too many unstable individuals, including unstable veterans on psychotropic medication, with guns.

In the 22 years that I have lived in Orlando I have not witnessed the level of gross depravity for human life that I have seen in the last six (6) months. If it as if Satan the devil himself has moved to Central Florida making Orlando his personal playground.

Mr. McDonald, once I complete the letter I will email it to you in a timely fashion.

Thank you for your service to our nation veterans.

Sincerely,

Ezell Harris Jr., Director

California Vietnam War memorial to the missing vandalized

This Friday, May 27, 2016 image from video provided by KCBS-TV/KCAL-TV shows graffiti on a Vietnam War memorial in the Venice area of Los Angeles. The homespun memorial painted on a block-long wall on Pacific Avenue lists the names of American service members missing in action or unaccounted for in Southeast Asia, painted by a Vietnam veteran and dedicated in 1992. The wall has been tagged previously but the latest vandalism - within the past week - covers the bottom half of the memorial for much of its length. (KCBS-TV/KCAL-TV via AP)

Hi,

I am a producer for BBC World News and I would like to firstly express my deepest sadness and condolences for such tragic events in your part of the world overnight.

I was wondering if the Mayor, or if anyone from the City of Orlando Council, or public safety department is available to do a Skype interview on our programme this evening any time between 0100- 0700 British time, which would be between 2000- 0200 Florida time. It will be with our America Correspondent Katty Kay and will have world-wide coverage. It shouldn't take more than a few minutes.

Please let me know if this could work, and I will be in touch to organise further details.

Chief Mina-

I write to you in the hope that this note finds you, and you in turn share it with the men & women who make up the OPD and in particular those who dealt with today's tragedy on behalf of me, my family, and everyone in our city.

I followed along as events unfolded and among the deep sadness felt so much pride in the heart, courage, bravery, and skill that our police department showed, and we expect nothing less. While I struggle to process what happened today, I can at least take comfort in this pride. It is without rhetoric. It is pure.

Police. Cops. People. We need to remind ourselves that you all go home to your families at night, cry when you hurt, lay sleepless when disturbed and feel love for people.

It doesn't feel like "thank you" is weighty enough express the deep appreciation, gratitude, respect and genuine empathy that I feel for you all. I am positive I share this with a great majority of our city.

I can say honestly that while I do carry this sentiment every day, moments like this are a humbling reminder of the brave, selfless community-minded people that you are.

Thank you.

Ryan Sit here with the Daily News. We're writing an article citing a noted active shooter prevention expert, who worked SWAT and now consults on active shooter incidents, who was highly critical of OPD's response to the Pulse shooting. The man, Christ Grollnek, said the delay between arrival at the scene and neutralizing the threat cost lives and said it's protocol to engage with the suspect as soon as shots are fired.

Would the department like to respond or comment on Grollnek's statement?
Why did SWAT wait so long to enter the building?

Extra duty officer in full police uniform hired by Pulse responded to gunshots from the club. Officer engaged and fire shots at suspect. two on duty swat officers were quickly on the scene entered the club and exchanged gun fire with the suspect. By making quickly making entry and engaging the suspect they were able to force the suspect to stop shooting and retreat into a bathroom where he barricaded himself and held several people hostage. Officers were able to rescue about 15 to 20 people at that time. SWAT deployed and negotiators were in contact with the suspect who did talk about bombs and that there were vehicles that had bombs. He said he was wearing a vest but would not elaborate. Several calls and texts from people inside who were trapped. We were able to rescue more people by removing an air conditioner unit. He was barricaded in one of the bathrooms with hostages. A group of people were in the opposing bathroom. Made statement that led us to believe he was going to detonate a bomb in 15 minutes. Based on where the bathroom was with the other people who were trapped we set up for an explosive breach. Explosive breach did not defeat the wall, but is was damaged. We used the bearcat armored vehicle to make a hole in the wall, people were rescued from that bathroom. At some point the suspect came out with two handguns and shot at officers, they returned fire and killed the suspect.

Dear John:

This weekend I had the honor to attend and deliver an advocacy address at the Family Cafe conference attracting some 9,000 professionals, volunteers, parents and other family members focused on the needs of individuals with disabilities. I was amazed at the energy and enthusiasm to make progress for those family members with special needs who need us most.

The gathering was a festive and fabulously affirming convening. The blend of joyous reunions and the opportunity to make new friends was inspiring.

The conference took place in Orlando, just 10 miles away from the site of the horrific massacre at the Pulse Club at which 50 innocent people were slaughtered...and an equal number were wounded and whose lives hang in the balance.

How ironic that I was exhilarated by the love and devotion which was pervasive throughout the conference, only to awaken Sunday morning to the news of the ultimate act of hate...mass murder motivated, it appears, by the perverse need to destroy people perceived to be different and therefore disposable.

Like you, I'm stunned that anyone would take such a despicable step in the direction this killer chose. The arrogance of a person who believes that bigotry justifies murder shocks the conscience of anyone who values justice and peace.

As a Floridian, I'm stunned, but at times like this, geography is irrelevant. Acts of hateful rage can erupt anywhere.

The horrible massacre is the latest in an agonizing series of mass murders which plague our nation and other parts of the world.

Hate is a perverse and powerful motivator. Fighting the forces of evil must be a priority for everyone who cares about our individual and collective futures.

Words of outrage and sentiments which attempt to sooth the pain of family members and colleagues of the victims are hollow if we do not advocate for sensible reforms.

While we grieve for this tragic loss of life, I sincerely believe we must energize our resolve to take action.

I stand with law enforcement leaders, public health allies, reform advocates and families affected by firearms violence in this fight to bring needed legal redirection.

We all should advocate initiatives which which limit the sale of military-style weapons with multi-round ammo magazines, provide more preventive safeguards through expanded background checks, and enact further restrictions on gun show commerce...nationwide...not just locally.

Some voices claim that firearms are not the problem, criminality is. Yes, defending our families and property is a priority, but let's admit that the proliferation of firearms feed their availability to criminals through theft and illegal sales.

Legitimate gun ownership for self protection, historic collections and sports is not at issue....but what is clear is we are at a point in our lives when logical lines of defense must be drawn.

The debate should not be whether any change is needed.....but to what degree are we willing to recognize that slaughter can be prevented if we mesh quality mental health services with strong and enforceable anti-violence laws.

It is our first responders who put their lives at risk every day, and their counsel is vital to our safety and security.

I believe that the multi-faceted violence issue deserves our attention so that our elected officials hear the voices of citizens who support a balanced approach to this vital public policy debate.

The ultimate tragedy in times of turmoil is not just the oppression and cruelty by bad people, but the silence of the good people - Rev. Dr. Martin Luther King, Jr.

My Request for Your Support - Please Respond

June is my favorite month...I love celebrating Father's Day and shortly afterward is my June 26th birthday....

A loyal supporter of my 4Generations Institute's advocacy and communications work has generously agreed to offer a dollar for dollar match for all financial gifts received between now and the end of June.

This friend, who chooses to remain anonymous, is aware that much of my work in media communications, public policy counsel, sharing strategies for effective advocacy and helping young advocates comes without pay.

And that's true....trust me.....I say "Yes" to good causes more often than you can imagine!

My service as the advocates' advocate is a role I cherish and as you know, the demand is great.

I feel so fortunate to have the friendships and allies I've nurtured over the years and hope that this request for support of my work is taken in this spirit.

I sincerely believe that "*Ask and ye shall receive*" applies to my communications and advocacy work. I hope you will agree to invest in my voice and be eligible for the match.

Here is a link to a printable page [4Gen Support Form](#) to facilitate your gift response.

If the link is not accessible, please send me a note asking for a Word version or simply provide your name, postal mailing, e-mail address and phone contact.

Please send your check payable *4Generations Institute* along with your complete contact information to:

4Generations Institute
Att: June Match Gift
P.O. Box 10875
Tallahassee, FL 32302

Please take a moment to consider my request. A gift in any amount would be sincerely appreciated and promptly acknowledged.

As I build the 4Generations Institute initiative to promote inter-generational communication, community leadership, policy/program advocacy and volunteer commitments, I am awed by the power of relationships.

Just as in families, the health of a community is in the depth and breadth of relationships among those who share common interests and provide mutual support.

I look forward to communicating Institute's message to influence the public policy debate on behalf of every age and stage of life. While there's strength in our diversities, there's power in our unity!

I also plan to continue counseling students and help a growing number of fledgling and grass-roots family advocacy efforts.

Please remember to keep me in mind for keynote addresses, conferences and annual meeting speeches, seminar and workshop facilitation, professional development sessions, and strategic planning activities focusing on advocacy, communications, resource development, leadership and positioning for success. Allow my voice to boost your priorities and special cause.

I'm honored to be in touch with you and thrilled to send my messages your way. You may forward my messages to your family, friends and colleagues anytime!

Your sharing my thoughts is a high compliment and your replies to me are always welcomed.....please take a few minutes and let me know what you think...and if you prefer receiving my messages at another or additional e-address, please let me know.

On behalf of my family, heartfelt wishes for a healthy, peaceful and productive Summer season.

My best.

Jack

Subject: Re: Visiting Orlando - Request for Help

Dear
Sir ,

We are a family of 4 from Mumbai (India) visiting Orlando from 14th to 21st June 2016.
This will be our 1st visit to the USA.

We will be taking our United Airlines flight from Mumbai to Orlando in approx.14 hours
from now.

We just read about the news of the shootout in Orlando and are certainly sad and
worried.

We request you to please guide us :

1. Whether we can must come to Orlando or cancel this plan ?
2. Is it safe for my family to come there ?
3. Would the Disney & Universal parks be fully operational ?
4. Would there be any sort of emergency declared and tension in Orlando ?
5. Would we be able to see the city safely ?

Please revert as soon as possible so we can make plans accordingly.

Warm regards ,

Utpal Mehta (from India)

Subject: Pulse nightclub shooting in Orlando

Something that made me stop and think:

OPD/UCF Officers clear 5 story Building in 1 Hour after reports of a shooter. <http://www.centralfloridafuture.com/story/news/2016/04/26/possible-gunman-reported-ucf-library/83558712/>

OPD clears Downtown 17 story Office Building in less than an hour after mass shooting.
http://www.nytimes.com/2009/11/07/us/07orlando.html?_r=0

Why did police wait 3 hours to shoot the gunman of a mass shooting in a 1 story 2 room building? How many people bleed out during those three hours? How many more bleed out during the next 2 hours after the gunman was killed, and the police waited to enter the building looking for anyone still alive?

Why was there a difference this time?
